

Wild Seas

by PESCHAK, THOMAS

Wild Seas

One of Nat Geo's most popular nature photographers shares 200 breathtaking images - and the stories behind them - from a wide swath of wild ocean locales around the globe. From whales plying the waters of Baja California to manta ray ballets in the Maldives to the surprisingly abundant desert shores of Arabia, National Geographic fan favorite Thomas Peschak has spent a lifetime documenting the beauty and fragility of underwater life and coastal landscapes. This awe-inspiring book of photography charts his transformation from studious marine biologist to full-time conservation advocate, armed with little more than a snorkel mask and a camera.
